Beaked Coralfish

› learn & play ‹

› learn & play ‹ is our new edutainment effect that makes education fun. Just watching is outdated – now visitors can experience and learn! Try edutainment at its best!

When you touch a specific fish or sea creature, it will present its name and other interesting details.

In this way zoos, aquariums, museums and science center can impart exciting themes from nature and technology in a playful and perceptible manner as well as provide a unique learning experience.

Create a new attraction with an impressive unique selling point!

› learn & play ‹ is suitable for tables, floors und walls and can be customized with respect to the content.
